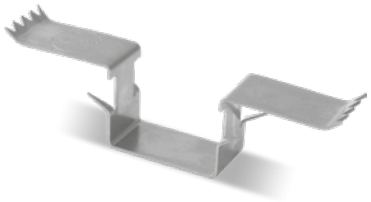
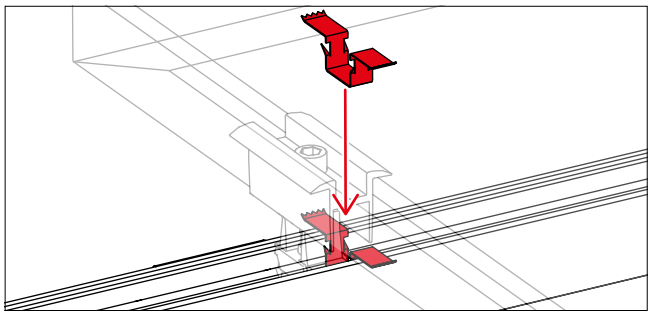
TerraGrif Applications

Equipotential bonding in K2 mounting systems

TerraGrif K2SZ: For most K2 pitched roof systems

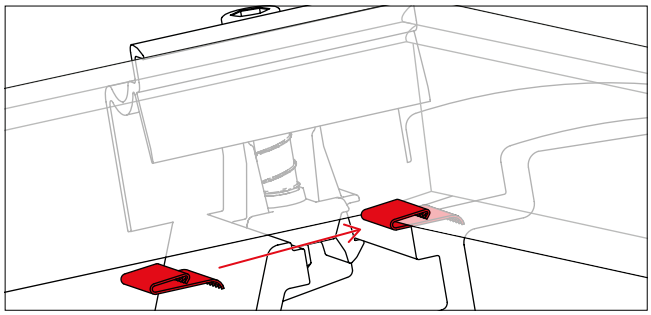
- Simple fixation to the K2 mounting rail
- Position in the lower edge area of the module frame
- Not compatible with BasicRail in landscape orientation





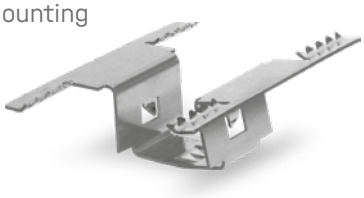
TerraGrif U17

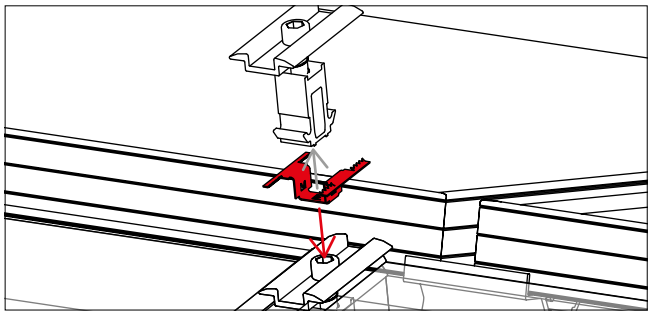
- Easy fixation to the lower edge of the module frame and compatible with most module types
- Position in the adjacent elevation area or mounting system component



TerraGrif K2MI: The DomeClamp Solution

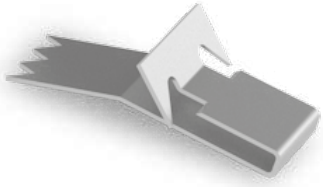
- Direct attachment to the module clamp DomeClamp
- K2MI connects 2 modules and is suitable for both portrait and landscape mounting

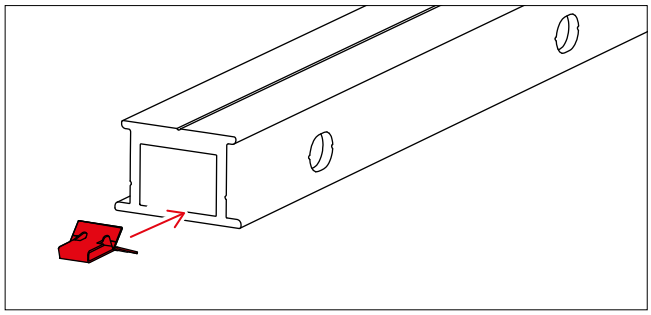




TerraGrif PL: Recommendation for Dome 6 Xpress

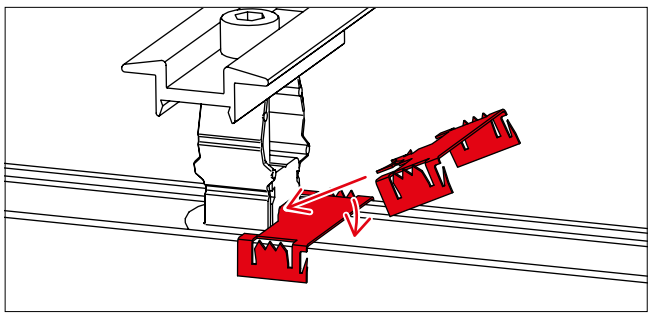
- Easy fixation to the Dome 6 Connector.
- Potential equalisation according to VDE





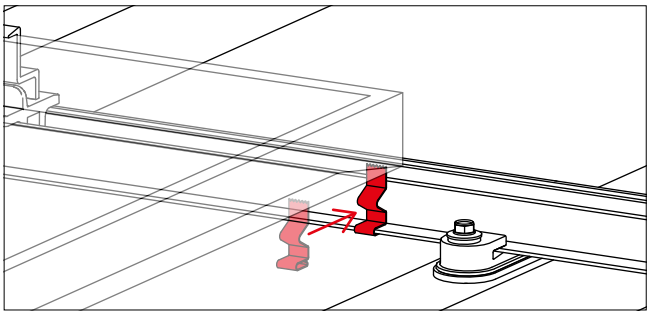
TerraGrif QL: For most K2 pitched roof systems

- Easy fixation in the K2 Clamp and in the K2 mounting rail.
- Not compatible with BasicRail with horizontal mounting



TerraGrif K2PA: For BasicRail systems in landscape orientation

- Quick fixation to the lower strut of the BasicRail
- Free placement in the lower edge area of the module



TerraGrif S: Recommendation for the K2 Insertion System

- Fast fixation at the lower bar of the insertion rail
- Free positioning in the area of the module frame edge
